SCWI EXAM PROCESS

OVERVIEW

AWS recognizes three certification levels for welding inspectors:

- **Senior Certified Welding Inspector (SCWI):** The Senior Certified Welding Inspector expands on the education, knowledge and experience of the CWI and can solve more complicated weldment issues.
- **Certified Welding Inspector (CWI):** The Certified Welding Inspector has basic knowledge of welding, understands welding inspection concepts and principles, and can locate and understand information within the specific code book. Please refer to the CWI Examination Guide for its structure and content.
- **Certified Associate Welding Inspector (CAWI):** The Certified Associate Welding Inspector has met the same criteria as the CWI but has not yet obtained the required amount of field experience. Please refer to the CWI Examination Guide for its structure and content.

For more information, please review the following governing Standards:

- [AWS QC1:2016-AMD1 - Specification for AWS Certification of Welding Inspectors](#)
- [AWS B5.1:2025 - Specification for the Qualification of Welding Inspectors](#)

The Examination Guide for the SCWI is the official guide to the rules, policies, procedures, and exam content for the SCWI exam from which all candidates should familiarize themselves. Please retain this User Guide for future reference. This User Guide is subject to change.

THE SCWI CREDENTIAL

The SCWI exam was developed by the American Welding Society (AWS) to provide an opportunity to the Certified Welding Inspector (CWI) who seeks to expand their career.

SCWI candidates typically will have supplemented their basic education or gained extensive problem-solving experience. This type of background provides them with a deeper and more specific understanding of advanced NDE topics, quality assurance systems, procedure qualifications, and personnel and project management knowledge, skills, and abilities.

THE SCWI EXAM

According to B5.1:2025, Clause 7, candidates seeking to become SCWIs must pass a written exam to obtain their credential. The SCWI exam uses one eligibility code for registration.

Test Specifications

Test Specifications are a breakdown of examination content areas along with the proportion of the examination devoted to each content area.

The exam is presented in two sections:

- Section 1: Closed book section
- Section 2: Open book section

The domains and weights (percent of questions on the examination) of both sections are presented in the tables below.

	Domains (Content Categories)	Percent of Questions
Section 1 (140 items)	Inspection Metallurgy	15
	NDE - MT	4
	NDE - PT	4.5
	NDE - UT	4.5
	NDE - RT	4.5
	NDE - VT	7
	Quality Assurance	17
	NDE - Personnel Qualification and Certification	5
	Inspection / Weld Discontinuities	3.5
	Personnel and Project Management	5
Section 2 (30 items)	Performance Qualification	10
	Procedure Qualification	10
	Mechanical Testing	10

Informative References for Self-Education

For self-study purposes, applicants preparing for the AWS SCWI examination can consult the Suggested Reference List found in Appendix B.

Examination References

The B2.1/B2.1M:2021 – *Specification for Welding Procedure and Performance Qualification* standard is the only reference material that can be used during the open-book section.

Important!

Candidates are allowed to bring a hard copy of B2.1/B2.1M:2021 to test centers. The reference material must be the original or permanently bound printed copy (as by stitching or glue), or securely fastened in its cover by fasteners that penetrate all pages. No loose sheets of paper are permitted.

An electronic PDF copy of B2.1/B2.1M:2021 will be available on the screen during the exam. AWS recommends becoming proficient at navigating the digital codes through using bookmarks in the PDFs. Candidates not familiar with navigating conventional PDF documents are welcome to review the computer-based testing frequently asked questions (CBT FAQs) found [HERE](#).

Some features of conventional PDF navigation may be disabled by Prometric for psychometric reasons.

General SCWI Exam Information

- Exam delivery: Computer-based test (CBT) at Prometric test centers
- Exam content time:
 - Closed-book section - 2 hours.
 - Open-book section - 2 hours
 - Optional-30-minute break after the closed-book section
- Total seat time: 4 hours (without break) to 5 hours (with break)
- Exam question type : 4-option multiple choice questions
- Total number of exam questions:

The Passing Score

Successful candidates must complete the exam with 72% or greater.

ELIGIBILITY

Candidates must provide complete documentation at the time of application confirming that they meet all eligibility requirements, including proof of visual acuity and minimum experience and/or education completion. Based on application types (e.g., initial, retest, or renewal/recertification), specific information may also be required.

For a complete list of requirements to register, click [HERE](#).

APPLYING TO TAKE THE SCWI EXAM

Candidates should be aware of the different registration options for domestic and international exam applicants. Domestic candidates (within the US and Canada) will apply directly with the American Welding Society and test at a Prometric Testing Center.

International candidates (outside of the US and Canada) will have the following two options:

1. Apply through an AWS International Agent to test at one of the Prometric Test Centers found around the world. This is the recommended option for international exam candidates.
2. Apply directly through the American Welding Society webpage, and test at a Prometric Testing Center.

Note: Please use the requirements below depending on your location.

Domestic (US and Canada)

Application Instructions

Applicants located in the United States or Canada apply directly via the [Certification Application Portal](#).

- It is not necessary to complete the application in one sitting. You will be able to save your work by clicking on the "Save" button at the top or bottom of each screen. You can navigate among pages by using the "Save & Continue" and the "Save & Go Back" buttons. You can also log out at any time by clicking the "Save & Logout" button. The "Save" button simply allows you to save your work but continue working on the current page.
- For each individual file upload, the maximum file size is 5 MB.
- The first and last names on the application must match what is listed on the government-issued ID presented as proof of identity at all exam sites and test centers.
- New users will be asked to create a username and password to log into the AWS Certification Application Portal.
- The Certification Application Portal will guide applicants step-by-step to complete the exam application.

The screenshot shows the AWS Certification Application Portal login page. At the top left is the AWS logo, and at the top right is a "My Account" link. Below the header, it says "Hi There. Welcome to AWS." The main content area is divided into two columns. The left column contains a login form with the following elements: the AWS logo and "American Welding Society" text; instructions: "PLEASE USE YOUR EMAIL ADDRESS TO LOG IN. NOT YOUR MEMBER NUMBER. CLICK FORGOT PASSWORD BELOW TO RESET YOUR PASSWORD."; an "Email Address" field with the placeholder "PLEASE ENTER YOUR EMAIL ADDRESS HERE" and the example "JohnDoe@gmail.com"; a "Password" field with a strength indicator; a "Keep me signed in" checkbox; a "Sign in" button; and links for "Forgot password?", "Unlock account?", and "Help". The right column contains a "Lookup Email via Member Number (Click Here)" link, three buttons: "Become a Free User", "Become a Member", and "Become a Corporate Member", and a text box stating: "We added a new option to use your phone to improve your experience when resetting a forgotten password. The next time you log into the website, you may be asked for your phone number. This is a one-time request to verify your phone number. You will not be asked again to update your phone number." Below this is another text box: "If you need to reset your password, you will now have the option to receive a reset code via email, text message, or voice call." At the bottom of the right column, it says: "If you have questions about this new option or your account, please contact customer service at 800-443-9353."

- Candidates can update and change their profile and contact information by accessing the Member profile via the [Certification Application Portal](#).

If you would like to purchase using a PO please contact accounting at accounting@aws.org

INDUSTRY

CHECKOUT

Please enter your email address *:

Previous

Next

- Candidates can view the online status of an application, order, or membership via the [Certification Application Portal](#).

The screenshot shows the AWS Certification Application Portal interface. On the left is a navigation menu with options: PROFILE, MEMBERSHIP, ORDERS, CERTIFICATIONS, APPLICATIONS (highlighted), and AWS LEARNING. On the right, there is a 'NEW CERTIFICATION APPLICATION' button and a search bar. Below the search bar is a table with columns: Name, Type, Fee, Event, and Status. The table contains one entry for Orlando Yudice. Below the table, it says 'Showing 1 to 1 of 1 entries' and has 'Previous', '1', and 'Next' navigation buttons.

Name	Type	Fee	Event	Status
Orlando Yudice - CWI with API 1104 Initial Application	CWI with API 1104 Initial Application	CWI Exam Only	Orlando Yudice - CWI - Waco, TX39619 - November	Status

- Approximately 4-6 weeks after the application submission, a Confirmation Letter will be emailed from the AWS Certification Department. The Confirmation Letter contains examination details. (Appendix D shows a sample Confirmation Letter.)

Important

Computer Based Test appointments are scheduled with Prometric after the registration process.

Exam Fees

Exam fees are due at the time of registration and are paid directly to AWS. AWS accepts payments via MasterCard, VISA, and American Express. The SCWI exam price list is [available online](#). Domestic applicants choosing to send their application to AWS headquarters via email (pdf) or mail carrier (paper) will incur an additional \$125.00 processing fee.

American Disability Act (ADA) Accommodations

Candidates living within the US who have a documented disability under the ADA that prevents them from taking an exam under standard conditions may request special accommodations when they register through the Certification Application Portal. For the special accommodations AWS provides, please click [HERE](#).

International (outside of the US and Canada)

International applicants have the option to apply for the SCWI exam through the following two methods:

1. Register by contacting an international Agent of their choice:
For a list of available international Agents, please click [HERE](#).
2. Register through the Certification Application Portal.

AWS – Certification Application Portal Instructions

International candidates registering directly through the AWS can follow the instructions under “Domestic Application Instructions.”

AWS Agent – Application Instructions

1. Applicants registering through an AWS Agent must review the [AWS Agent](#) contact information on the AWS webpage to select an Agent of their choice.

2. Applicants must download and print the SCWI Application form, complete it thoroughly, and submit it along with all required supporting documents to the designated Agent hosting the exam site. It is important to ensure all information is accurate and complete to avoid delays in processing. Additionally, applicants should verify the submission deadlines and confirm the required documents with the exam site agent in advance.

3. Approximately 4 to 6 weeks after the application has been received and qualified, a confirmation letter will be sent to the International Agent and candidate containing examination details. (See Appendix D for a sample of approval letter.

Important

Computer-Based Test appointments are scheduled with Prometric after the registration process.

Exam Fees

Exam fees are due at time of registration and paid to the International Agent representing AWS. Agents can provide pricing information regarding international SCWI exams.

ADDITIONAL EDUCATION AND TRAINING

Currently, AWS does not offer training/seminars for the SCWI exam. However, Reference Materials are available by contacting the Technical Standards Sales Department at 305-443-9353, Ext. 280 or visit the [AWS Bookstore](#).

For a complete list of reference materials for the SCWI exam, refer to Appendix B.

SCHEDULING THE SCWI EXAM

The SCWI examination is one exam structured into two sections, each lasting two hours. The SCWI exam is CBT and is offered at Prometric Testing sites located throughout the world.

Important

An eligibility code is provided in a candidate's AWS confirmation letter for use in registering at Prometric. This code indicates to Prometric that the exam candidate has been authorized by AWS to sit for the exam.

Scheduling the SCWI exam is done via the [Prometric website](#). Please note:

- The eligibility code found in the AWS Confirmation letter is required to secure exam dates and locations.
- Prometric will confirm the appointment by email. The Prometric appointment confirmation letter will indicate the test center location, appointment time, and exam name.
- Candidates are advised to print the Prometric appointment confirmation letter and present it at the Prometric Testing Center at check-in.
- **IMPORTANT!** Prometric will refuse entry to candidates lacking valid government-issued ID, or when the candidate's name printed on the Prometric appointment confirmation letter does not exactly match the name on the government-issued ID presented at check-in.

- AWS can resolve naming issues in advance by phone. Unresolved naming issues may require exam rescheduling and additional fees.

Rescheduling / Cancellations / Refunds

Circumstances may arise that will require candidates to reschedule or cancel the exam. Appointments must be rescheduled or canceled well before the exam date, or exam fees are forfeited. Details can be found [HERE](#).

Prometric appointments for both domestic and international candidates may be rescheduled by calling Prometric or visiting the [Prometric website](#).

Required Documentation at Check-In

All candidates must provide the following items at check-in before all exams:

- A Government-Issued Identification:
 - Examples: Driver License, Passport, or State ID.
 - ID must be current and include the candidate's full name, date of birth, a recognizable photo, signature, and expiration date. If this ID does not include a signature, then a secondary ID (e.g., credit card, student ID or military ID) with a signature is required in addition to the primary ID.
- Printed exam AWS confirmation letter.

TAKING THE SCWI EXAM

Prometric Test Centers

AWS has partnered with Prometric Testing Centers to deliver many AWS certification exams, including the SCWI Exam. Prometric Testing Centers offer a secure and safe testing environment for all candidates. Information about AWS CBT Exams can be found [HERE](#).

Prometric Test Center Check-In

The most up to date source of information on the Prometric Testing experience can be found [HERE](#).

Candidates should arrive at the designated Prometric test center thirty (30) minutes before the scheduled appointment. At check-in candidates will be required to sign a log-in sheet and review and agree to comply with the [Prometric Test Center Regulations](#), after which a Prometric representative will verify the candidate's identity, exams, appointment time, and testing location. Individual lockers are available for the candidate's use. Prometric is not responsible for any loss or damage to personal items left outside/inside any premises where the exam is taking place.

Test Center Administrators (TCA)

The Prometric testing center environment is strictly controlled and continuously monitored by video and audio recording to ensure exam security.

The Test Center Administrator (TCA) will perform a security check on all exam candidates to ensure no prohibited items are brought into the testing room. The TCA will provide scratch paper and a pencil, escort candidates to their workstations, and launch the exam.

The TCA is not allowed to answer questions related to exam content. Notify the TCA immediately if any problems with the computer, software or any other issues arise during the exam.

In the event any Prometric Test Center Regulation is violated, the TCA is authorized to end any test session. The regulations can be viewed [HERE](#).

In the Testing Room Workstation

Once the candidate is seated at the workstation, the computer will load the exam. Prior to the exam starting, the candidate must review and agree to the [Candidate Attestation Agreement](#). Next, the computer will display a tutorial which demonstrates how to navigate through the computer-based test.

Note: The time for the tutorial is not deducted from the time available to take the test.

There is an optional 30-minute break between sections. The candidate has the flexibility to bypass the break or end the “break” early by selecting to resume the exam. If they opt for the break, the exam will automatically begin once the 30 mins are up.

Items Allowed at the Workstation in the Test Room

- Valid Government-issued ID
- Pencil and scratch paper issued by Prometric TCA
- Test center locker key
- Relevant codebooks in hard copy if applicable
- Acceptable Calculator:
 - Acceptable : Four-function, Construction, Non-Programmable Scientific
 - Unacceptable: Noisy, Programmable, Alphabetical, Memory

Note: All Calculators will be inspected during Check-In for compliance.

Important!

Candidates will be allowed to bring water into the test room during their exam. Water must be in a clear or transparent container with a lid or cap. All labels must be removed, and the container will be inspected for notes or other test aids. The candidate will need to remove the lid/cap for visual inspection by the Test Center staff. Should the container not meet the requirements outlined, the candidate will be required to put it in their locker and will not be allowed to take it into the test room.

Items NOT Permitted at the Workstation in the Test Room

Items not included in the testing room are not limited to:

- Cell phones, tablets, computers and/or other electronic devices
- Non-medical Wearable Electronics
- Wallets, purses, bags
- Hats and other head coverings (unless they qualify as religious apparel)
- Coats
- Notes, pens, loose paper, erasers
- Food and non-water beverages
- Books

Prometric Policy on Unscheduled Breaks

There is an optional break during the SCWI CBT exam. This means candidates can take a break without having exam content time reduced.

To request an unscheduled break, candidates should raise their hands and wait to be acknowledged by the TCA. If a candidate needs to access any item in storage such as medicine, during a break, the TCA must be notified.

Candidates returning from a break must present their valid ID, go through all security checks and sign-in before being re-admitted to the test room. Unscheduled departures from the test room will be reported to AWS.

The amount of time used during unscheduled breaks *will* be deducted from the test time.

Completing the Exam

After the exam has been completed, candidates will notify the TCA by raising their hand. The TCA will confirm that the exam has ended properly before a candidate leaves the test room.

AFTER THE EXAM

Exam Result Reporting

Your Exam Score

The scores are reported to the nearest lower whole percent number, which is calculated by dividing the total number of correct answers by the total number of questions.

Passing Score

The passing score is a **minimum** of 72%.

Preliminary CBT Exam Score Report

A preliminary Prometric exam score report will be emailed directly to the candidate within twenty-four (24) hours of completing the CBT exam. A sample Prometric Score Report is provided in Appendix D of this Guide.

AWS Official Score Letter

Candidates will receive their AWS official score letter for SCWI exam via email approximately two (2) weeks after the final exam part has been completed at the Prometric Testing Center. A sample version of the AWS Official Score Letter is provided in Appendix E of this Guide.

Meeting the B5.1 Requirements for CWI

Candidates who achieve a **minimum** overall score of 72% and who meet the additional requirements specified in the AWS B5.1:2025- *Specification for the Qualification of Welding Inspectors* may become Senior Certified Welding Inspectors.

Receiving the SCWI Credential

Six to eight weeks after SCWI Exam scores are confirmed, AWS shall issue all new Senior Certified Welding Inspectors a serialized (unique) SCWI number, Official Certificate, Wallet Card, and Stamp.

Certifications can be viewed through the [Certification Application Portal](#) and the [AWS QuikChek](#) webpage. To replace a Certificate, Wallet Card, and/or Stamp, complete and submit the order form located [HERE](#).

OTHER POLICIES AND PROCEDURES

AWS/Prometric Testing Experience Concerns

Candidates are encouraged to provide comments or concerns regarding their testing experience. Concerns about the Prometric test experience must be directed to the Test Center Administrator before leaving the Prometric Test Center and submitted to [AWS](#) no later than two (2) days after the test.

Exam Content Feedback

AWS welcomes feedback regarding the content of exam questions as they help improve the overall quality of AWS exams. Content feedback can be submitted online by clicking [HERE](#). The feedback will be carefully reviewed by subject matter experts. In the event an error is found in the exam, the scoring will be adjusted for all impacted candidates.

Appeals

If a candidate's exam results have been invalidated due to a violation of testing policy, the candidate may appeal in writing within thirty (30) days from the date of the decision to the AWS Managing Director of Certification via email at certification@aws.org, or mail to 8669 NW 36th Street #130, Miami, FL 33166.

Retaking the Exam

SCWI candidates who do not achieve a required passing score are eligible to retake an exam up to two (2) times within one (1) year of the original test date.

Complete details on the retest process are described in the [AWS QC1: 2016-AMD1 Specification for the AWS Certification of Welding Inspectors, Clause 6.2](#).

Renewals and Recertifications

Renewing the SCWI Credential

SCWI Certification is valid for three (3) years from date of issue. SCWIs who can demonstrate continued work experience in the welding industry may renew their credential for a further three (3) years by applying via the [Certification Application Portal](#). SCWI renewals are limited to two (2) consecutive three-year periods after which recertification is required.

Note: AWS may send reminder notices, but it remains the responsibility of the SCWI to renew their certification credential or recertify on time.

SCWIs who fail to renew by the expiration date will be [listed](#) as having an expired credential. Renewals submitted after the administrative sixty (60) day grace period but within one year of expiration may be accepted for renewal; however, administrative late fees may be applied.

For complete details on the renewal process and all options refer to [AWS QC1:2016-AMD1 Specification for the AWS Certification of Welding Inspectors, Clause 15](#).

Nine-Year Recertification

After eight (8) years and one (1) month, SCWIs who wish to recertify may submit a 9-year recertification application via the [Certification Application Portal](#).

A SCWI can recertify through any of the following non-exam and exam options:

Non-Exam Options:

- 80 PDHs
- [9-year recertification course](#)

Exam Options:

- SCWI Exam
- Previous CRI Certification
- Endorsement exam to a code not previously taken.

Note: an additional CWI endorsement achieved within 9 years prior to recertification may be eligible.

APPENDIX A - CANDIDATE ATTESTATION AGREEMENT

You must review and agree to the terms of the Candidate Attestation Agreement before starting your test.

1. I attest that I am the person whose name appears in the form of identification I presented prior to admission to the testing room.
2. I understand and agree that all AWS certification exams are confidential and secure tests, protected by U.S. and international copyright laws.
3. I understand and agree that all test materials, including my answers, are the property of AWS, and I will not be provided access in any form except on the test itself.
4. I understand and agree that disclosing any exam question or answer to any person, in whole or in part, by any means whatsoever is unlawful and even potentially a criminal act, and I may be financially liable and/or charged with theft for doing so. I also understand and agree that if I disclose information about exam questions or answers, I may suffer adverse consequences, including but not limited to any or all of the following:
 - civil or criminal liability for copyright infringement or related conduct; and
 - disciplinary action by AWS, including prohibiting me from seeking certification in the future.
5. I understand and agree that AWS is the final authority that determines if I can take an exam.
6. I understand and agree that AWS has the right to cancel my scores if it finds any evidence of any irregularities whatsoever.
7. I understand and agree that furnishing inaccurate details about myself, breaching exam regulations, or acting contrary to the instructions outlined on the AWS/Prometric website, confirmation letter, and the AWS Certification and Qualification Standards may result in disciplinary action, including but not limited to removal from the test session under the supervision of the Test Supervisor or Test Center Administrator; score annulment; disqualification from taking the exam in the future; and potential legal liability.
8. I agree that upon obtaining my certification, I give permission to AWS to publish my certification status as it relates to its validity and duration.

I understand and accept the terms of this agreement.

APPENDIX E - SAMPLE AWS OFFICIAL SCWI SCORE REPORT

Senior Certified Welding Inspector (SCWI)

Score Report

123456

John Doe

8669 NW 36 St.

Miami, FL 33166

US

Exam Status: Pass

Senior Certified Welding Inspector

Exam Passing Score: 72%

Your Score: 80

Congratulations! You have passed the examination of the Senior Certified Welding Inspector Program.

The percent correct score is the number of correctly answered questions divided by the total number of questions on the exams.

SCWI certification requires a passing score of 72% or greater for the exam.

Exam Type	Score
Average Score:	79%

Your certificate, wallet card, and official AWS stamp will be mailed to you within 4-6 weeks from the receipt of this letter. AWS QuikCheck is updated to reflect this new certification.

NOTE: It is your responsibility to contact AWS if you have not received your Credentials within 120 days of receiving this letter. After these 120 days, you may incur additional charges to order a duplicate.
